

UofTHacks 11

We're  
hiring!

# Welcome to UofTHacks 11.

Thank you for your interest in being a part of the UofTHacks 11 Organizing Team!

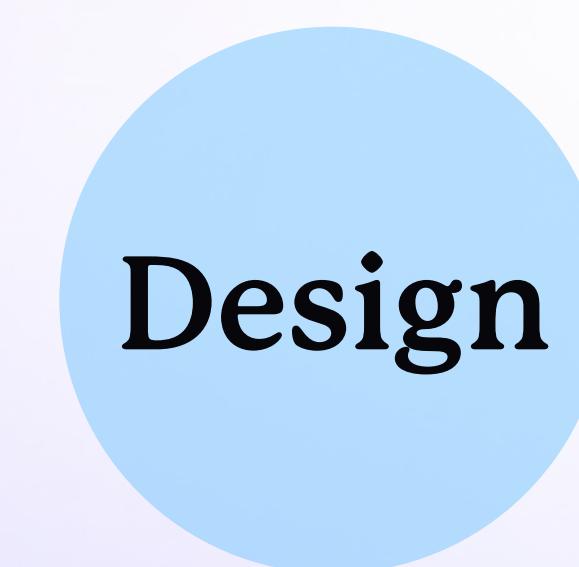

We are excited to welcome you as part of our team!

The UofTHacks organizing team is a group of students who are responsible for planning and hosting The University of Toronto's largest hackathon, an event where over 500 students from all over Canada gather together and participate in a 36 hour competition.

Students spend this time building unique and impactful projects using technology, and are provided support by sponsors and mentors.

# Our structure.

UofTHacks is composed of two presidents and five teams.  
Each team has: 2+ executives and are lead by 1-2 vice-presidents.

# Logistics Team

The logistics team is responsible for managing activities or events such as:

- designing/distributing merchandise and prizes
- coordinating the schedules for hackers, sponsors, and volunteers
- organizing any other events that may be needed

You will be expected to thoroughly arrange and budget events, and be able to resolve any issues that may arise in planning.

# Sponsorship Team

The sponsorship team is responsible for acquiring and budgeting funds.

You will be responsible for creating the sponsorship package, and reaching out to representatives of various companies, and collaborating on possible deals.

You will be expected to be comfortable speaking and forming relationships with your contacts, and responding to them in a timely manner.

# Design Team

Product Design executives will be responsible for designing intuitive and user-friendly interfaces that reach thousands of individuals across Canada.

Product design executives will have the opportunity to design internal tools and user-facing websites that will be used by sponsors and hackers.

Graphic design executives will be responsible for designing and implementing visual concepts which would encapsulate the theme for our hackathon.

Graphic design executives must have an eye for detail, and a strong idea of visual concepts.

# Web Development Team

The web development team is responsible for creating and maintaining outlets such as: The official UofTHacks website, hacker portal, QR service, and other web services that may be needed.

A Web Development Executive would be working closely with the product design team and other members of the team to create a polished final product.

Some skills which would be of use include but are not limited to: React JS, Node JS, HTML /CSS/JS/TypeScript/JQuery.

Personal projects/past experiences are *not required*, but a plus!

# Marketing Team

Marketing Team Executives are responsible for being the link between our audience and the UofTHacks team.

They take charge of all external communications, crafting captivating content for our social media platforms.

They work on delivering special announcements, and maintaining branding initiatives.

Moreover, they lead the charge in planning and executing marketing campaigns that have the potential to reach thousands of people, providing them with a platform to showcase their skills and drive innovation.
